This is the word that reaches here through consular authorities. Recently, a prominent consular officer said that on a trip from Europe to this country, no less than fifty students of commercial matters sailed on the same vessel This official has lately come to the United States from abroad on leave. He said, moreover, that he was apprised that this was not exceptional and that the number of German commercial students who are coming here is constantly growing.

Two considerations enter into the fact that the Germans are giving increased attention to American business methods. One of them is that it is dawning on Germany that this country has many points of superiority, in a business way, over England. Another is the bitterness of the feeling between the English and the Germans. For years, the Engand the Germans. For years, the English have been bitter over Germany's commercial progress. The English have grown in hatred of the Germans. And the Germans have reciprocated. Moreover, within recent months the two countries have been right on the brink of war and hatred has been growing. Under such direumstances, the tide of German students of commercial affairs has naturally turned from England. Kaiser Wilhelm wants his young men to get out and travel and observe. He has long been of the conviction this was a good thing for the Fatherland. He is encouraging the visits of the commercial students to this country.

Congressman Hartholdt of Missouri, who knows the Kaiser personally, practically corroborates what the consular advices indicate. He thinks the Kaiser has encouraged young men, anxious to broaden their knowledge of affairs and business, to spend some time in this country.

Alleging the free delivery zones of the express companies, the railroad companies, and the other common carriers operating in Washington are arbitrarily fixed, and are without regard for distance from freight stations or central distributing points, the Anacostia Citizens' Association has filed formal complaint against these companies with the Interstate Commerce Commis-

sion.

The Pennsylvania and Baltimore and Ohio railroad companies, named defendants with the express companies, have steadily refused free deliveries to the residents of Anacostia. A hearing on the petition filed will be held early in May.

Last night Cardinal Gibbons was the dinner guest of Mr. and Mrs. Christian D. Hammick.
